

"It's like this Doctor"

When you've got a health problem, a visit to the Doctor for an expert diagnosis is your first port of call. The right treatment can then be started to cure the problem.

Similarly, when you're trying to find the source of that annoying "rattle" or "strange noise" in your vehicle, a diagnostic appointment would be a great place to start.

Delivering your kind of service...

WORK YOU CAN RELY ON

- Fully qualified technicians
- Latest workshop technology and equipment
- Quality parts used

HERE WHEN YOU NEED US

- Immediate diagnostic checks available
- Fast appointments convenient to you
- Open to suit our customers

TOP VALUE

- Very competitive prices
- Tyres Exhausts Batteries Brakes
- All-Makes and models
- While-you-wait service
- Scheduled and tailored servicing and repair

DIAGNOSTIC APPOINTMENTS

A better fault finding service

Driver Information

Getting the best from your car

Saving you time and trouble

Diagnostic appointments are short, usually less than 20 minutes, pre-arranged visits when an expert technician suited to the problem in question can spend some time analysing the fault with you.

By doing this we know what is needed to cure your vehicle's problem and can have the right parts and right amount of time available when it comes in for repair.

Sometimes minor problems can possibly be fixed there and then.

Using diagnostic appointments ensures that after a visit to our workshop your vehicle will be available with the problem cured, on time every time.

TWO WAYS TO BENEFIT

PRE-SERVICE APPOINTMENT OR PROBLEM-SOLVING APPOINTMENT

If you are booking a vehicle in for service and want additional faults attended to, check with the service receptionist whether a diagnostic appointment would benefit you.

When the source of a fault is uncertain then a check-over in advance by one of our expert technicians will help pinpoint the cause. This enables us to have the appropriate parts and time available during the service, to ensure the fault is fixed.

DIAGNOSTIC APPOINTMENTS MEAN

- short specific fault finding visit
- by appointment to suit you
- fault analysis before workshop visit
- first time fault-fixing at the workshop visit

If your vehicle is not due for service and you want a fault of uncertain cause fixed, then a diagnostic appointment is your best first step.

You can demonstrate the fault to one of our experts and we will attempt to pinpoint the problem and give you an estimate for the cost and time needed to repair it.
